

American Buddhist Net

Do your best. Speak the truth.

Jessica Rose, PhD, on VAXXES: "I think if people knew the reality of what was actually going on, they would decide very quickly never to go near these things again. This isn't hearsay, people, and it's not conjecture. The clinical trials were garbage. And there's no safety data... and it's very reflected in all these adverse event data collection systems all over the world"
